

VIRGINIA ASSOCIATION OF ASSESSING OFFICERS

RESOLUTION

It appears to this board that some of the members of this organization do not have available to them certain fringe benefits. It further appears that the benefits of group hospitalization insurance, group life insurance, and a retirement plan in particular are not available to some of our members.

It also appears that it would be in the best interests of the membership for the Virginia Association of Assessing Officers for this organization to sponsor a group insurance program to provide these benefits to its members.

Now, therefore, be it resolved by the Board of Directors that this organization desire to sponsor a group insurance program for its members which would include group hospitalization insurance, group life insurance, and a retirement plan.

Approved by the Board of Directors
on January 28, 1977

James C. Falconer

President
